

Health Insurance Stability...So You Don't Have to Worry

During these times, we know that many families' circumstances are changing. As always, we are here to help keep your family healthy, and having health insurance is key to your family's health and safety. Families who need access to health insurance should apply for coverage as soon as possible – it's your safety net, and you may be eligible for low or no-cost coverage for you and your family. If you've lost health insurance that you had through a job, make sure to apply within 60 days of losing that coverage. However, the sooner you apply, the sooner your new health insurance can start. Even if you cannot afford COBRA coverage, you may still apply for health insurance through the Health Connector or MassHealth.

- **Application and enrollment ONLINE is the easiest way to apply for those with access to a computer:**
